Overview of Noble Energy’s Current Drilling Program in Nevada

Rick Stucker, Sr. Geologist, Rockies/Frontier Business Unit, Noble Energy, Inc.

Noble Energy, Inc. is a Houston-based E&P company. Founded by Lloyd Noble in 1932 in Ardmore, Oklahoma, and originally known as Samedan Oil Corporation, Noble Energy was one of the first independent operators to explore the Gulf of Mexico. Today, the company has five core areas in various regions of the world, with reserves of 1.4 billion barrels of oil equivalent at year-end 2013. The five core operations areas are the DJ Basin and the Marcellus Shale onshore in the U.S, deepwater Gulf of Mexico, offshore Eastern Mediterranean, and offshore West Africa.

Noble Energy’s corporate purpose is “Energizing the World, Bettering People’s Lives.” We strive to provide energy for the world by finding and producing oil and natural gas, while positively influencing the lives of our stakeholders. Along with technical excellence and financial discipline, we endeavor to demonstrate leadership in environment, health, safety, compliance and stewardship.

After drilling two Devonian tests in Eureka and White Pine counties in 2003, Noble Energy has returned to Nevada to pursue a Tertiary age oil play in Elko County. Two exploratory wells were drilled in late 2013. Formation evaluation included robust logging suites, collection of a multitude of rotary side wall cores, whole core and extensive geochemical analysis. The first well has been completed and production testing should commence in May. The completion design for the second well is in process. A second exploratory phase drilling program is expected to commence Q3 2014.

About the Speaker:

Rick Stucker, Sr. Geologist, Rockies/Frontier Business Unit, Noble Energy, Inc.

Rick has been with Noble Energy since 2005. He worked waterflood development and close-in exploration projects in the Marietta Basin and Criner Hills Uplift in south central Oklahoma. After transferring to the Rockies Business Unit he worked Noble’s Piceance Basin asset, drilling and completing tight gas sand wells in the Mesa Verde Group and initiating a horizontal drilling and spacing unit for Mancos-Niobrara development. Rick has been involved in the Nevada project since 2012. Industry experience prior to joining Noble includes working as a wellsite geologist on the Gulf Coast, as a processing geophysicist in the Williston Basin and Alaska, and as an exploration geologist in the DJ Basin.

Rick earned his bachelor’s degree in geology at the University of Colorado and did post-graduate work at the Colorado School of Mines.

NEW NPGS Officers 2014-2015 (Jun 1-May31):  

President    Judy Kerack, Engineer, Lumos & Associates  
Vice President/President-Elect John Snow, Chief Operating Officer, Standard Steam  
Secretary    Jerry Walker, Geologist  
Treasurer    Steve Foster, Geophysicist/Geologist  
Past-President   Bill Ehni, Geologist, Ehni Enterprises, Inc.  

2014 NPGS Graduate Student Research Awards:  

Five thousand three hundred and fifty dollars in grants, were made to eight student applicants.  

1) Michael Evans (M.S. candidate at the University of Nevada, Las Vegas), $1,000 – Structural development and tectonic role of the Arrowhead Mine Fault, Pahranagat Shear Zone, Nevada  
2) Shaimaa Abdelhaleem (M.S. candidate at the University of Nevada, Las Vegas), $1,000 – Kinematics and timing of the eastern part of Las Vegas Valley Shear Zone, Nellis Dunes area, Nevada  
3) Chad Carlson (Ph.D. candidate at the University of Nevada, Reno), $750 – Strain transfer at the northern termination of the central Walker Lane, Terrill Mountains, western Nevada  
4) Holly McLachlan (Ph.D. candidate at the University of Nevada, Reno), $750 – Determining the subsurface stratigraphy and modeling first order structural controls on basin floor topography and fluid flow in the Carson Sink Basin, northwestern Nevada  
5) Sarah Evans (Ph.D. candidate at the University of Nevada, Las Vegas), $500 – Sedimentology and geochronology of late Eocene to early Oligocene conglomerates, east-central Nevada and west-central Utah  
6) Nicholas Paasche (M.S. candidate at the University of Nevada, Reno), $500 – A sensitivity analysis of parameters controlling heat flow in a geothermal reservoir  
7) Stephen Angster (Ph.D. candidate at the University of Nevada, Reno), $500 – The big step: a neotectonic link between Cascadia and the Walker Lane  
8) Andrew Sadowski (M.S. candidate at the University of Nevada, Reno), $350 – Structural controls of the Black Warrior geothermal system, Truckee Range, Washoe County, Nevada  

Congratulations to all the students. Thanks to Jim Trexler, Chair of the Scholarship Committee this year, for organizing this important annual event. Thanks also to Bill Ehni, Alan Wallace, and Jerry Walker for their work on the Committee this year. Finally, special recognition is in order for the members who contribute to the NPGS Scholarship program during the membership renewal, enabling the NPGS to distribute additional funding to these students.

>Calendar Contest Deadline – now June 30, 2014

Do you have an amazing photo of Nevada geology that you would like to see in the next 2015 Nevada Geology Calendar? Entries are still being accepted for this photo contest! The deadline has been extended to June 30, 2014.

Here are the details for the 2015 calendar contest:
· Deadline for entries is now June 30, 2014.
· Photos need to be taken in Nevada. A location description and/or GPS coordinates should accompany submissions along with description.
· High-quality, high-resolution photo files of at least 300 dpi are required for quality printing.
· You may enter as many photos as you wish.
· E-mail submissions to Jack Hursh (jhursh@unr.edu).
· NBMG Cartographers will make the final decision on the winning photos.

Prizes will be awarded for first-, second-, and third-place winners. http://www.nbmg.unr.edu/_docs/2015_Calendar_photo_contest.pdf

>BLM Job Announcement

We are pleased to announce a new, exciting position available at BLM - BUREAU OF LAND MANAGEMENT. It is our hope that qualified, career oriented individuals at your organization or other professionals known to you will actively consider this position and apply accordingly. Efforts on your part to disseminate this information are greatly appreciated.

Position Information:

Job Description: Student Trainee (Petroleum Engineering);
Announcement Number: MT-PTHWYS-2014-0002;
Location(s) of position: Great Falls, MT, US, Miles City, MT, US, Dickinson, ND, US;
Salary: $12.07 - $17.61;
Applications will be accepted until: 04/30/2014.

>GSN Field Trip – May 2-4, 2014

GSN SPRING 2014 FIELD TRIP - May 2-4, 2014
Humboldt Range, Majuba Hill, and Trinity Range (Au, Ag, Cu, Sn, W, Be, Hg, Sb, B).

From GSN Newsletter, March 2014: Register now for the GSN’s Spring Field Trip coming up on Friday May 2 to Sunday May 4, 2014! Jonathan Price, GSN V.P. and field trip leader has laid out a great itinerary for the 3-day trip. We will overnight in Lovelock, Nevada both nights. This trip will be a bit different as we will be riding in 4WD vehicles so we can visit places that a bus just can’t get to. Bring your rock hammers and questions and join your fellow geologists on this one-of-a-kind adventure.
Contact Laura Ruud, GSN Office Manager, for more information: gsn@gsnv.org.
>GSN Symposium 2015; May 14–24, 2015

John Ascuaga’s Nugget Hotel and Casino in Sparks, Nevada

“Even as much as the world has become available for exploration over the past decade, miners continue to return to Nevada. Why? Political stability, transparent regulatory environment, good infrastructure and GREAT GEOLOGICAL POTENTIAL. Miners return to focus on Nevada’s geology and its important mineral deposit types: Carlin, epithermal and intrusion-related gold and silver, as well as other deposit types (porphyry Cu and Mo, IOCG and industrial materials) are also rising in importance.”

A message from Laura Ruud, GSN Office Manager: The GSN 2015 Symposium Committee has been hard at work for months now organizing the next magnificent GSN Symposium to be held May 14-24, 2015! [Please see link below for] the first announcement flyer, and we encourage you to read and share with any colleagues you wish that may not be GSN members and who will want to participate. The Committee has already started lining up the field trip itineraries, speakers, exhibitors, posters, a core-shack, and a joint GSN-SEG Forum to be held on May 17, 2015 the day before the Symposium technical sessions begin.

Questions regarding the meeting can be directed to Molly Hunsaker, Symposium Chair, at mollymhunsaker@2015gsnsymposium.org. If you have questions about submitting an abstract, or an idea for a technical paper, the Technical Program Chairs are John Muntean and Moira Smith.
